Foreword Molecular Diagnostics Training School 2024 Digital Pathology & Image Analysis Training School 2024

From Prof. Renate Kain

I would like to welcome you all to the sixth Molecular Diagnostics Training School and the fifth Digital Pathology & Image Analysis Training School, both to be held as hybrid events this year. The school is supported by the

Austrian Society of Pathology, the Nottingham Molecular Pathology Node and the European Microscopy Society.

Established in co-operation with the University of Nottingham, the Molecular Diagnostics Training School and Digital Pathology & Image Analysis Training School have developed into a highly successful joint venture. For this year, we have introduced - thank you for your constructive feedback - a few changes to our program. Covering ever-increasing and rapidly evolving fields, both Training Schools have now become too short to give all the novel and exciting topics the space they deserve. We have therefore decided to cover the basics of molecular diagnostics, digital pathology and image analysis in pre-recorded lectures that provide the foundation for those of you who have little or no experience in either biological background or technical/methodological approaches. These pre-recorded lectures will be available to you before the beginning of the Training Schools and are the basis for the

specialized lectures on recent developments in technological approaches as well as worked examples.

As for the Molecular Diagnostics Training School (MDTS) I would like to begin with the following statement:

Molecular Diagnostics is the foundation for precision medicine.

The MDTS is aimed at persons who may have little experience with molecular diagnostics but also those who are looking for a refresher course or want updates on novel developments. The training school will introduce you to common concepts which underpin the tests, including the panoply of tests which are currently used in diagnostic practice. We will also discuss the importance of getting good template and of having robust quality assurance for your tests. The school will also cover new methodologies such as digital spatial profiling and it will conclude with an overview of current applied molecular diagnostics in a variety of different organ systems.

And an apt introduction to our Digital Pathology & Image Analysis Training School is the statement:

Digital Pathology and Image Analysis: Prepare, the future is here!

The DP&IATS is aimed at both, Trainee and Consultant Pathologists and non-clinical scientists/computer experts, who may have some experience with digital pathology and platforms, but are looking to deepen their knowledge. Thus the training school aims at bringing together histopathologists and computational scientists to foster mutual understanding and collaboration. As digital technologies are transforming histopathology diagnosis and research, the training school will outline some of the basic challenges encountered during image analysis and introduce the concepts of stereology and segmentation analysis. In view of the rapid need for integration of image analysis with molecular diagnostics development, we shall explore both the spatial reasoning of imaging and assessment of multiple biomarkers on digital platforms.

We have a world class faculty to deliver the teaching materials and to deal with any questions.

I hope you enjoy and benefit from the two training schools. We will not make you into a card-carrying molecular biologist in these three days, and can only hope that the basic language of image analysis is no longer alien and the clinical perspective contextualized after the three-day DP&IATS, but if you come away agreeing with my introductory statements, then the school will have achieved its aims!

Best wishes,

Renate Kain

Professor of Pathology

Medical University of Vienna

Sunday, 25 February 2024
Pre-Conference Tutorials (Optional)

ONLINE ONLY

Tutorials for the Molecular Diagnostic Training School (optional)

Registered attendees can watch the tutorials below via the links emailed to them.

The Basic Principles of PCR

Prof. Mohammad <u>Ilyas</u> – University of Nottingham, UK

Basics of FISH

Prof Ana-Iris Schiefer - Medical University of Vienna, Austria

Variant Nomenclature (HGVS Nomenclature/Human Genome Variation Society)

Prof Leonhard Müllauer – Medical University of Vienna, Austria

The Basics of Genetics, Genomics

Prof Martin Bilban - Medical University of Vienna, Austria

Quality Control in NGS

Dr Antonios Koussounadis - Saphetor SA

Integrative Genome Viewer

Dr Raheleh Sheibani Tezerji, Medical University of Vienna, Austria

Tutorials for the Digital Pathology & Image Analysis Training School

Basics of Digital Imaging Including Lexicons

Prof Vincenzo Della Mea - University of Udine, Italy

What is a Whole Slide Image?

Dr Christopher Kaltenecker – Medical University of Vienna, Austria

Day 1 – Monday, 26 February 2024 Basics of Technologies

Morning Session Chair: Prof. M. Ilyas

	Morning Session Chair: Prof. M. Ilyas
08:25	Introduction - Welcome
08:30	Real-Time PCR and Data Interpretation Prof. Mohammad <u>Ilyas</u> – University of Nottingham, UK
10:00	Comfort break
10:30	The Highs / Lows and Data Interpretation of Sequencing Dr Susan Richman – St James University Hospital, Leeds, UK / Dr Antonios Koussounadis - Saphetor SA
12:00	The Liquid Biopsy Prim. Prof. Karl <u>Sotlar</u> – University Hospital Salzburg, Austria
12:30	Lunch break
	Afternoon Session Chair: <i>Prof. L. Müllauer</i>
13:30	Chromogenic In-Situ Hybridisation Prof. Elizabeth Soilleux - Dept of Pathology, University of Cambridge, UK
14:00	The Molecular Tumour Board Prof Leonhard <u>Müllauer</u> – Medical University of Vienna, Austria
14:30	Next Generation Sequencing – Worked Examples Prof Martin <u>Bilban</u> - Medical University of Vienna / Dr Sophia <u>Petschnak</u> - Klinik Favoriten, Vienna
15:30	Comfort break
16:00	NEQAS – Ensuring Standards in Molecular Diagnostics Dr Jenni <u>Fairley</u> – UK NEQAS, UK
16:30	NGS – Principles & Platforms PD Dr Gregor <u>Hörmann</u> - MLL Munich Leukemia Laboratory, Germany
17:30	Wrap-up Day 1 of MDTS

Day 2 – Tuesday, 27 February 2024 Worked Examples I

Morning Session Chair: Prof. R. Kain

	Morning Session Chair: <i>Prof. R. Kain</i>
08:45	Day 1 Recap (optional) Prof Mohammad <u>Ilyas</u> - University of Nottingham, UK
09:00	Programmed Cells – Machine Learning for Molecular Medicine Prof Christoph Bock - CeMM Research Center for Molecular Medicine of the Austrian Academy of Sciences / Medical University of Vienna, Austria
10:00	Homologous Repair Deficiency Prof Leonhard <u>Müllauer</u> , Prof Christoph <u>Grimm</u> - Medical University of Vienna, Austria
10:30	Comfort break
11:00	Hereditary Tumour Syndrome Prof Katharina Wimmer- Medical University of Innsbruck, Austria
11:45	Rubbish in=Rubbish out: The Importance of Template Dr Abhik Mukherjee - University of Nottingham, UK
12:15	Functional Profiling Prof Philipp <u>Staber</u> - Medical University of Vienna, Austria
13:00	Lunch break
	Afternoon Session Chair: Prof. A-I Schiefer
14:00	Molecular Diagnostics in Soft Tissue Tumours Dr Suk Wai <u>Lam</u> - Leiden University Medical Center, The Netherlands
14:30	Molecular Diagnostics in Lung Cancer Prof Leonhard <u>Müllauer</u> - Medical University of Vienna, Austria
15:00	Molecular Diagnostics in Melanoma Prof Ana-Iris <u>Schiefer</u> - Medical University of Vienna, Austria
15:30	Molecular Diagnostics in Male Genitourinary Cancers Prof Clare Verrill - University of Oxford, UK
16:15	Comfort break
16.30	Molecular Diagnostics in Gynaecological Cancers / Worked Examples Prim. Prof. Sigurd <u>Lax</u> — Medical University of Graz, Austria
17:30	Wrap-up Day 2 of MDTS

Day 3 – Wednesday, 28 February 2024 Worked Examples II

17:30	Wrap-up Day 3 and Close of MDTS
16.45	Homologous Recombination Deficiency, a Novel Biomarker in Cancer PD Dr Theo <u>Kraus</u> - University Hospital Salzburg, Austria
16:00	Pharmacogenomics Prof Henk Jan Guchelaar Leiden University Medical Center, The Netherlands
15:30	Logistics of Genetic Testing in Renal Disease Based on Worked Examples Dr Katherine Benson, RCSI University of Medicine and Health Sciences, Dublin, Ireland
15:15	Comfort break
14:30	Molecular Diagnostics in Gastrointestinal Cancers Prof Gerald Höfler - Medical University of Graz, Austria
13:45	Molecular Diagnostics in Breast Cancers Prof Emad Rakha - University of Nottingham, UK
13:00	Prognostic and Predictive Molecular Tests for Breast Cancer Prof Zsuzsanna <u>Bago-Horvath</u> - Medical University of Vienna, Austria
	Afternoon Session Chair: Prof. R. Kain
12:15	Lunch break
11:30	Molecular Diagnostics and Immuno-Oncology Dr Alexander <u>Haragan</u> - Royal Liverpool University Hospital, UK
11:00	Scientific Databases and Software in Diagnostic Molecular Pathology Dr André <u>Oszwald</u> - Medical University of Vienna, Austria
10:30	Comfort break
10:00	Molecular Diagnostics in Mesothelioma Dr Luka <u>Brcic</u> - Medical University of Graz, Austria
09:15	Molecular Diagnostics in Lymphoid Cancers Prof Ming <u>Du</u> - University of Cambridge, UK
08:30	Molecular Diagnostics in CNS Cancers Dr Zane Jaunmuktane - UCL Queen Square Institute of Neurology, UK

Supported by the

Austrian Society of Pathology and the European Microscopy

Society

Digital Pathology & Image Analysis Training School 2024

Day 1 – Thursday, 29 February 2024 **Exploring Terms and Technologies I**

Morning Session Chair: Prof. M. Ilyas

08:25	Introduction Prof. Mohammad Ilyas - University of Nottingham, UK
Whole S	lide Image Generation
08:30	Roadmap to Digitize Pathological Workflows Dr Anna <u>Bodén</u> – Linköping University, Sweden
09:15	Quality Control Catriona Dunn Leeds Teaching Hospitals NHS Trust, UK
10:00	Comfort break
10:30	Information Management and Standardization Dr Maximilian Koeller – Medical University of Vienna, Austria
11:15	Implementing Digital Pathology: The Step from Research to Diagnostics DI Markus <u>Plass</u> - Medical University of Graz, Austria
12:00 Lu	nch break
	Afternoon Session Chair: Prof. R. Kain
13:00	Digital Pathology: where are we on the hype cycle? Prof. Mohammad <u>Ilyas</u> - University of Nottingham, UK
Thinking	Like a Computational Pathologist – Methods in Computational Pathology
14:30	From Pixel to Tissue - Introduction to Computational Pathology for Pathologists Prof Andrew Janowczyk - Emory University, Atlanta, USA
15:15	Quantitative Histo-Morphometry – from Pixels to Diagnosis Dr Alain <u>Pitiot</u> - Ilixa Ltd, Ludwig Boltzmann Institute, Austria; University of Nottingham, UK
16:00	Comfort break
16:30	Introduction to Graph Models Dr Simon <u>Graham</u> - Histofy, UK
17:15	Convolutional Neural Networks: Leaving the Field of Histomorphometry Prof Vincenzo Della Mea - University of Udine, Italy
18:00	Vision Image Transformers: Attention Is All You Need Prof Faisal Mahmood, Harvard Medical School, Boston, USA
18:45	Wrap-up Day 1 of DP&IATS

Society

Digital Pathology & Image Analysis Training School 2024

Day 2 – Friday, 01 March 2024 **Exploring Terms and Technologies II**

Morning Session Chair: Prof. M. Ilyas

W	hat Is Machine Learning in the Context of Computational Pathology?	
08:30	General Introduction to Machine Learning for Pathologists Prof Vincenzo <u>Della Mea</u> - University of Udine, Italy	
09:15	Data Augmentation and Stain Normalisation Stephan <u>Dooper</u> — Radboudumc, The Netherlands	
10:00	Machine Learning Tasks in Computational Pathology (Segmentation, Classification, Regression) Prof Andrew Janowczyk - Emory University, Atlanta, USA	
10:45	Comfort break	
11:15	Obtaining Ground Truth in the Field with High Interobserver Variables Prof Junya <u>Fukuoka</u> , Nagasaki University, Japan	
12:00	Deep Learning in Computational Pathology Prof Jakob N <u>Kather</u> , Technical University Dresden, Germany	
12:45	Lunch break	
	Afternoon Session Chair: Prof. R. Kain	
13:45	How to Create a Dataset for Computational Pathology and What Points to Consider Dr Christof Bertram, PhD - Veterinärmedizinische Universität Wien	
14:30	High-Throughput Quality Control, Annotation, and Labeling in Digital Pathology Repositories for Biomarker Discovery Prof Andrew Janowczyk - Emory University, Atlanta, USA	
15:15	Comfort break	
How to	How to Translate a Pathological Question into Computational Pathology	
15:45	Assessing Immunohistochemistry – Scoring Methods and Pitfalls Dr Abhik Mukherjee - University of Nottingham, UK	
16:30	Histogenic Molecular Mapping – Multivariate Analysis of IHC Biomarkers Dr Alain <u>Pitiot</u> - Ilixa Ltd, Ludwig Boltzmann Institute, Austria; University of Nottingham, UK	
17:15	Industrial presentation – TBC	
17:30	Wrap-up Day 2 of DP&IATS	

Digital Pathology & Image Analysis Training School 2024

Day 3 – Saturday, 02 March 2024 Worked Examples

Session Chair: Prof. R. Kain

How to Translate a Pathological Question into Computational Pathology	
08:30	Prostate – Computational Pathology in Uropathology Prof Jeroen <u>van der Laak</u> - Radboudumc, The Netherlands
09:00	Breast – Computational Pathology in Senology Prof Zsuzsanna <u>Bago-Horvath</u> - Medical University of Vienna, Austria
09:30	GI Tract – Computational Pathology in Gastroenterology Sophia J. <u>Wagner</u> , Technical University Munich, Helmholtz AI, Germany
10:00	MALDI Imaging – Applications in Pathology Dr Kristina <u>Schwamborn</u> - Technical University Munich, Germany
10:45	Comfort break
11:00	Digital Intelligence for Tissue Pathology Prof Arvydas <u>Laurinavičius</u> - VUHSK, Vilnius, Lithuania
11:45	Future Outlook - The Remarkable Potential of Deep Learning for Histopathology Prof Jeroen van der Laak - Radboudumc, The Netherlands
12:30	Wrap-up Day 3 and Close of DP&IATS
